PROMPAID WEB/AMENDMENTS
Pop up box "south african triage scale"
-replace "south african triage scale" to "PROMPTAID EMERGENCY SCALE"
-under "IMMEDIATELY" in bracket add "get ambulance now!" clicking on this must connect the user to our dispatch center number to connect to for now is 0816709522, in the next phase of the project will also connect patients to surrounding emergency centers
-change 'WITHIN 10 MINUTES" to "WITHIN 30 MINUTES" under within 30 minutes in brackets add "get connected to a Doctor in 30min", clicking this must send a request for consultation to GPs who are flagged green on their status, the GP who accepts the request first will automatically get a booking of that requesting patient slotted in 30min on their appointments dashboard
-change "WITHIN 60 MINUTES" to "WITHIN 8 HOURS" under within 8 hours add "manually book a Doctor to see today", clicking this takes the patient to the home page of the website/app "FIND CARE" page where the patient will manually enter their symptoms, book a consult with the doctor of their choice, book a shuttle etc,
-after "It can wait" change that list of options "Repeat medicine. . ." to "Book a specialist, dentist, allied practitioner e.g physio, radiology/x-ray, lab services. change "WITHIN 4 HOURS" to "IN THE NEXT FEW DAYS", under in the next few days, add "book a non urgent service or consult", clicking on this still connects the patient to the home page just like with yellow option
-change the "10111" and add our dispatch number given

above
-the red box at the bottom with the text "call an ambulance. . ." must become a green button with a Whatsapp icon with the following text to the icon "ASK A DOCTOR", clicking this will connect the patient to our whatsapp line which I will manage in the first phase of the project
-change the last buttom also at the bottom with the text "No emergency... to a blue button with the text "VIRTUAL/VIDEO consult", clicking this button will connect the patient with the doctors that offer this service
