PROMPTAID WEB AMENDMENTS

blue circle

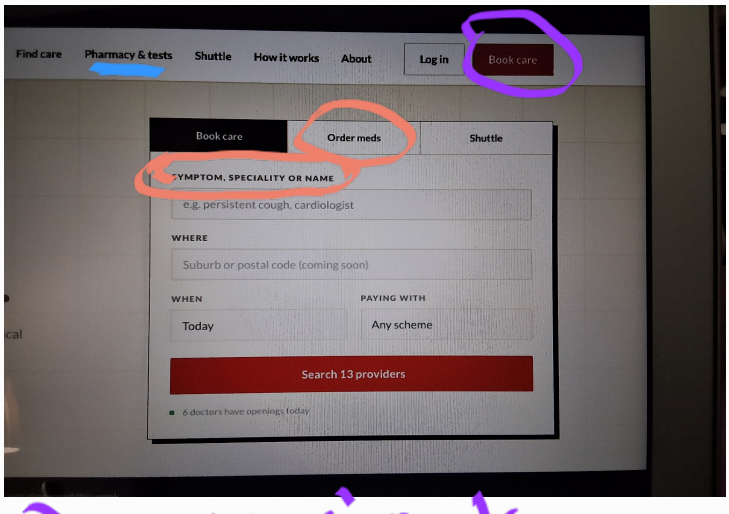

put the slogan "ONE TECH, ONE GLOBE, ONE EXCELLENT CARE"

Red circle

change to "Find a doctor, connect virtually and get a lift to your consultation"

yellow circle

change to "Download our sleek app and get all the benefits of promptaid right at the palm of your hand"

Purple circle

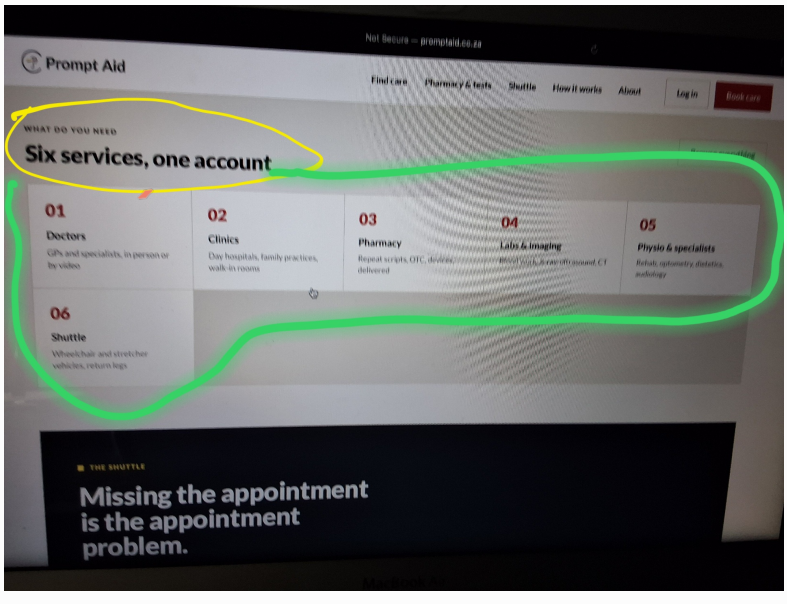

this "book care" must be changed to emergency and clicking this must open up the pop up box you get when you log in with all the 4 colour options

Blue line -

must be "Pharmacy" only, please create 2 other tabs that are gonna be between "Pharmacy" and "Shuttle", namely "Radiology" and "Laboratory", these tabs will have their separate landing pages

Red circle

instead of "order meds" change it to "Virtual consult". submenu will be the same as that of "book care" also remove that symptom and just keep "specialty or name" therefore forcing the "e.g" to "Dr Smith or cardiologist". the "when" and "paying with" filters can be scraped off, just to simplify the search for us

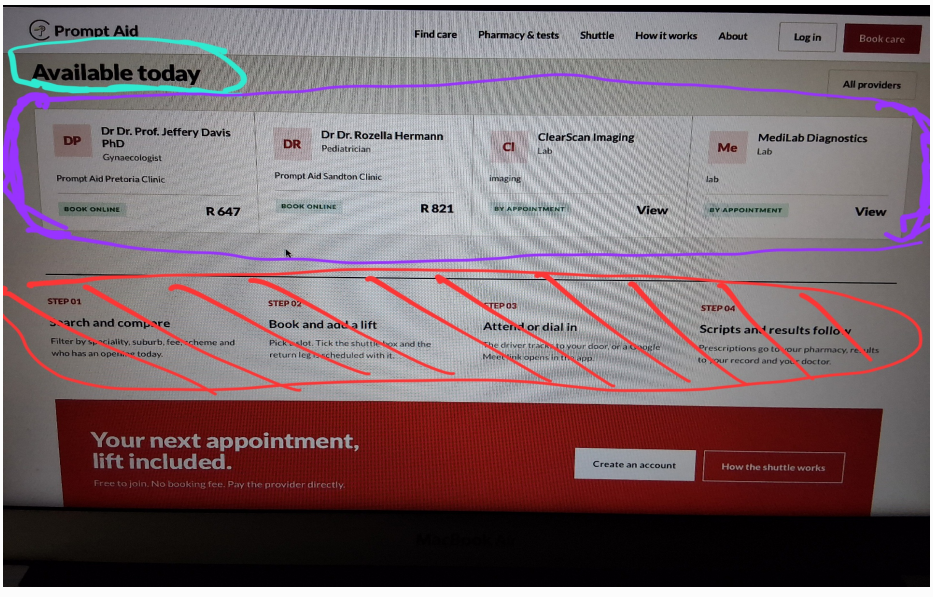

Yellow circle

change this to "BENEFITS OF USING PROMPAID"

Green circle

under each number list the benefits list in the document that I will send u separately on whatsapp, I think there is about ten benefits, in each box leave a "learn more" prompt, clicking on the learn more or the box must land the user to a subsection on the "about" landing page that I will still analyze and give u info about it

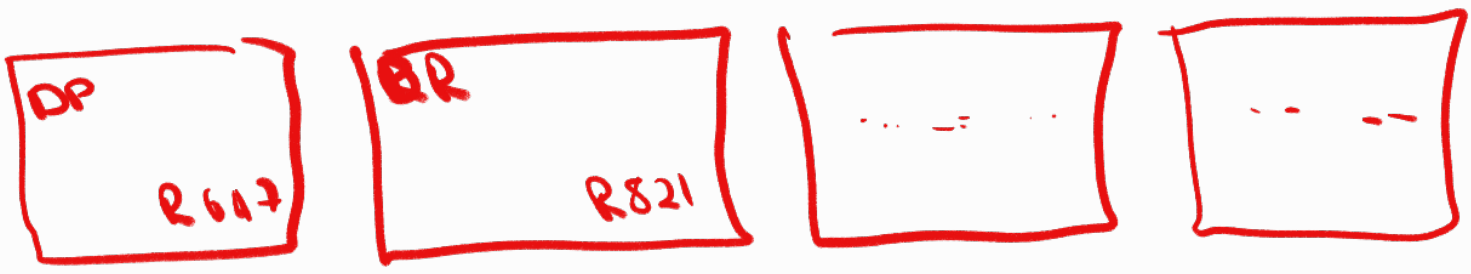

Ocean blue circle

change this "available today" to "Top rated doctors today"

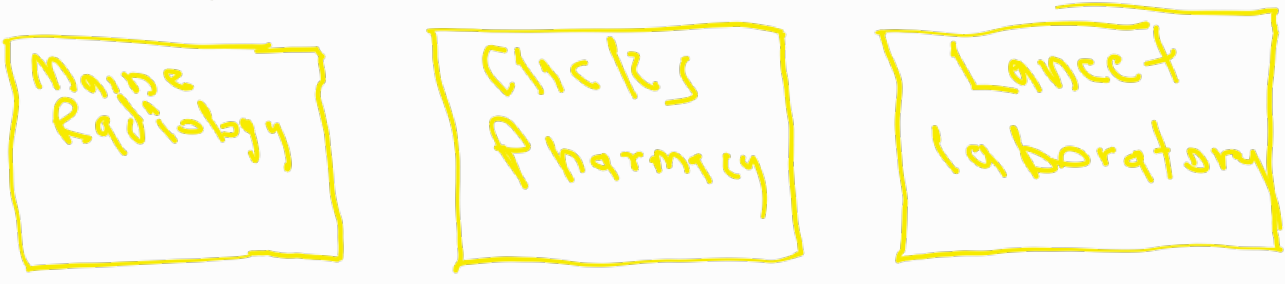

Red circled & scratched away

delete this part and replace it duplicating the purple circle but this time not showing the "top rated doctors but instead you make it to be "Top rated serves" I will illustrate it below

Top rated Doctors today

Top rated Services today

Your next appointment,
11th . . - - - - -
