

replace the orange shaded text with the following text, "Please note the status colour of our practitioners; where green means the practitioner is available to see you in 30 min, orange means the practioner is available to see you on the next available slot on the queue for that day and red means the practitioner is not avaible to see you on the day but future consults can be booked through the facility's admin"

-replace the text the yellow circled text with the following, "Topic of the month"
-the small text below must be replaced with "How can we combat Diabetes Mellitus in its deadly tracks"
-then change "create an account" with "Read topic"
-then change "How the shuttle works" with "Submit a testimonial"
-so clicking read topic must land the patient to the uploaded article on that month and clicking submit a testimonial should allow the patient to upload docs or directly type their experience with the disease in discussion
