PROMPTAID COMMANDS 4

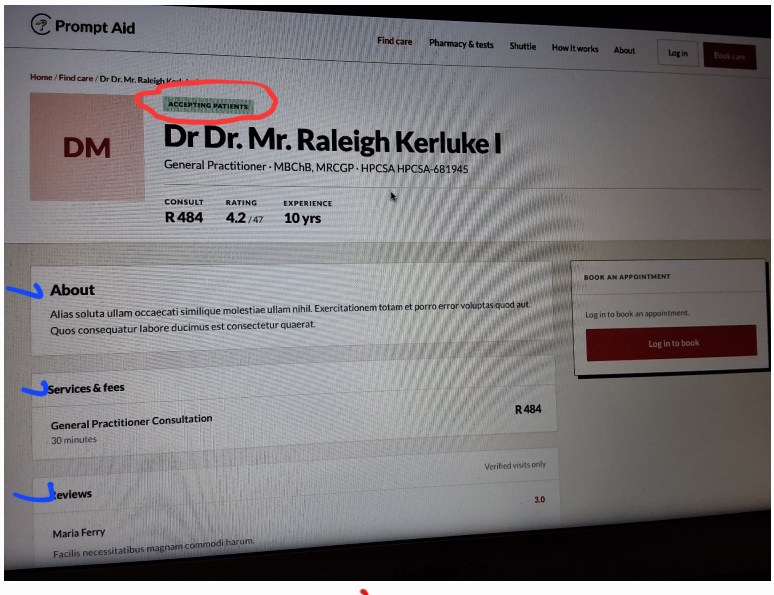

-please remove "symptom" and "persistant cough", the search should only be by name and/or specialty only

Green circle

-lets change these tabs as follows "all providers" to "General Practitioners", "Doctors" to "Dentists", "clinics" to "Specialists", "Pharmacies" to "Allied", "Labs & imaging" to "Radiology", "Physio & specialists" to "Laboratories"
-each tab must have its landing page just as I've noticed that the other tabs like "clinics" already have their landing pages

Orange circle

-clicking this button "see a doctor now" must also open that post logging pop up page with triage colour options

Red circle

-this is the availability status button and it must be active, meaning, it must reflect exactly how the doctor has flagged him/herself in their dashboard, where green means that that doctor is open to see the patient immediately (in 30min), orange means that the doctor is available to see the patient on that day but at a manually booked slot and red means that the doctor is not available to see the patient on that day but book a slot on the next calender days

Blue ticks

-here, in between these boxes I'd like you to add extra boxes with the following title
>Operating hours
>Contact details

here is the list of promptaid benefits I said I would give you for that home page
=IDENTIFYING THE LEVEL OF CARE
=QUICK ACCESS TO THE HEALTH SYSTEM
=CHOICE OF PRACTIONER
=CHOICE OF TRANSPORTATION
=ELIMINATING WAITING TIME
=ACCESS TO PHARMACIES, RADIOLOGY CENTRES AND LABORATORIES
=HAVE A SAY TO THEIR TREATMENT
=CONTINUATION OF CARE
=ASK A DOCTOR FEATURE
=ACCESS TO MEDICAL INFORMATION
